

Race indoctrination also promotes the differences between Equality and Equity. **Equality** means education is “the same” for everyone. Students are given the same resources and opportunities. **Equity** means education is “fair” based on circumstances (*special needs*). Resources and opportunities are allocated to reach **an equal outcome**.

The difference is “**circumstances**”. Racial Equity teaches that blacks are oppressed victims unable to manage their circumstances. That blacks need hand-outs and special treatment to succeed, instead of being **self-reliant**. Are circumstances different for the larger number of whites living in poverty; dysfunctional families; dangerous and declining cities and neighborhoods? The answer is “**no**”, there is no difference in circumstances. They say blacks are discriminated against by whites. But, that also is not true. Black on black violence is a testament to that fact; and, a sad reminder of the failed policies of Democrats running inner-cities they never talk about. **They're hypocrites!**

**Equality vs. Equity**
