

Superintendents of School Districts (*that will be replaced by Commissioners*), are elected by School Boards; and, have the same history of corruption; abuse of power; and, civil and criminal offenses.

The Loudoun County case of a 15-year old girl brutally raped in a school bathroom by a transgender boy, was finally brought to **justice after he raped another girl** at a different school. *He had been transferred by the Superintendent to cover-up his first rape offense.* The girl's father pleaded for months to have the boy prosecuted, but was ignored by the **Superintendent**.

The man was dragged like a **dog** from a School Board meeting. He was then arrested and charged for "unlawful assembly". **Citizen Controlled Education will enable that father to go directly to the Commission for assistance.**

The County's policy of allowing gender-free bathrooms caused the rapes that permanently damaged and endangered the lives of two young girls.
