

# The ugly faces of **Socialism**...the Satanic **Mother of Authoritarianism**.

**Socialism threatens our freedoms and prosperity.** It has brutally tortured and slaughtered more than one hundred million people worldwide; with more than two billion more living in fear, poverty, and oppression. In Venezuela, once the richest nation in South America, people are forced to eat their pets to survive the cruel repression of their dictator Nicolas Maduro - the dictator we support because of the **energy crisis we created**. The threat of Socialism is in our country and education system. More than **28% of College Faculty are declared Marxist**, with another 20% hiding in the bowels of academia.
