

Clause 9

Public Education has a fiduciary responsibility to taxpayers.

Schools must be held accountable for how they spend public funds.

Education must be affordable and have tangible benefits.

The goal is to reduce the cost of education by making schools more effective in improving learning outcomes and being student centered.

The Financial Management Office will audit spending and approve budgets.

Clause 10

Education should promote “informed patriotism”.

America’s great heritage of liberty, opportunity, and equality are the founding principles of our Republic that will be taught in all schools.

The teaching of American Civics is the only acceptable instructional standard.

Schools in conflict with the American Civics standard will lose funding.
